**DETAILED ACTION**

***Response to Amendment***

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action, when taken together with the changes made to the language of the claims by the amendment filed 1-5-07, is persuasive and, therefore, the finality of that action is withdrawn.
2. Claims 1-7, and 10-21 were pending in the instant application at the time of the previous Office action. Via the latest amendment filed 1-5-07, claims 11, 12, 15, 17, and 19-21 are additionally cancelled. Therefore claims 1-7, 10, 13, 14, 16, and 18 are pending and have been examined.

***Drawings***

3. The drawings were received on June 23, 2005. These drawings are approved.

***Allowable Subject Matter***

4. Claims 1-7, 10, 13, 14, 16 and 18 are allowed.
5. The following is an examiner's statement of reasons for allowance:  
The closest prior art in the field, Hong and Aucsmith, do not teach the combination of features recited in the independent claims, particularly including:

As for claims 1 and 13, indicia that are writeable only when program memory is overwritten. Claims 2-7 and 10 are dependent on claim 1 and are thereby allowable on that basis.

As for claim 14, indicia that are stored permanently within the modem. Claims 16 and 18 are dependent on claim 14 and are thereby allowable on that basis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
